FINANCIAL  
ADVISERS

## Savings

Powershop is determined to save you money, so much so that if you sign up before 1 November 2010 we'll guarantee you \$100 of savings in your first year. That comes through a \$50 account credit when you switch and we guarantee to save you an absolute minimum of \$50 on your electricity costs over the next year.

## Control

Unlike other electricity companies Powershop makes it easy to understand how you use your electricity and what you pay for every unit you use. You can make smarter decisions and manage your electricity to reduce your bill and impact on the environment.

## Choice

Choose to buy your electricity exactly the same way as you do now and save money. You can also manage your usage down using our online tools to save even more, or reduce your impact on the environment by buying green power and fully offsetting your carbon emissions.

## Switching to Powershop is easy & it's free

Most kiwis don't realise how easy it is to switch power companies, and no one makes it easier than Powershop. It's easy to sign up right now - all you need is:

the application form

**A recent electricity bill**
